For Immediate Release:

**NEW YORK ARTIST ROBERT LEACH
LAUNCHES CLASSY NEW WEBSITE**

<http://www.RLeachArt.com/>

New York artist Robert Leach's work consists of mixed media utilizing acrylic and collage.

Leach's pieces explode with primary colors, reflecting his cross-cultural and social background. He incorporates strong African, Picasso and Rouault elements in his works.

His paintings have been called a progression of Warhol's concepts because--as Warhol was never without his camera--Leach is never without his sketch pad. He captures real people; the folks one meets in parks, sitting at bars, dancing in clubs.

It is virtually impossible, however, to classify this unique, uninhibited artist. He doesn't consciously censor his art, which communicates at a visceral level.

Now Leach takes his art to the public with his colorful and classy new website, <http://www.RLeachArt.com/>. Designed by Steve Tetrault of Tetrault Design, the site offers beautiful and easy to navigate on-line galleries of Leach's works in several categories: **Faces & People**, **Still Life**, **Puerto Rico**, **Erotic Art**, and **Land & Cityscapes**. All the works on the site are available as one of fifty limited edition Epson 13" X 19" prints, with Epson archival 200-year colorfast inks, on Epson watercolor paper for \$500.00 each, plus shipping and handling. Each are numbered and signed by artist Robert Leach and the image size is the same as the paper size.
